June 28, 2023

Dear ICE Electronics,

By means of this letter I would like to inquire about the possibility of filling an outstanding internship position at ICE Electronics. My preference would be to fill the position of IT Support.

I am currently studying Computer Science at Royal University Of Phnom Penh. Now aday I am a third year student. During these studies, students are readied to become IT Support. I would like to use my skills with ICE Electronics, in order to make optimal use of my acquired knowledge.

I would describe myself as someone who is highly motivated. I would like to put these characteristics to use within your organization. Given my education at Royal University Of Phnom Penh, I think I am perfect for the position of IT Support. The components that were discussed during my studies closely match the skills required for this position

I would like to further explain my motivation to work at ICE Electronics during a personal meeting. You can reach me either by phone via 076 238 4056 or by email via thearasambath112@gmail.com Thank you for your consideration. I look forward to hearing from you

Sincerely,

Sambath Theara
